About us

SA Tiles and Decor was established with a passion for helping homeowners, builders, renovators, and designers create beautiful spaces through premium-quality tiles, flooring, and bathroom solutions. Our focus is on delivering stylish, practical, and long-lasting products that suit modern Australian homes and commercial projects.

We believe that every space deserves the perfect foundation. That's why we carefully curate our collection of floor tiles, wall tiles, hybrid flooring, bathroom products, and decorative finishes to combine exceptional design with everyday functionality. Whether you're building a new home, renovating a bathroom, or transforming an outdoor area, our range is selected to provide both aesthetic appeal and lasting performance.

At SA Tiles and Decor, quality, value, and customer satisfaction are at the heart of everything we do. From timeless classics to the latest design trends, we offer products that inspire creativity and elevate every project. Backed by expert advice, competitive pricing, and a commitment to excellence, we are proud to help South Australians bring their vision to life.

Transform your space with SA Tiles and Decor — where style, quality, and inspiration come together.

Nexus Oval LED Mirror

Weight: 5.2kg
Width: 500mm
Height: 900mm
Mirror Thickness: 5mm
Mount Depth from Wall: 50mm

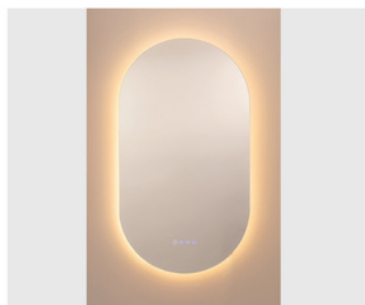

The Nexus Oval LED Mirror introduces softened vertical lines, ideal for compact vanities and narrower wall spaces. Adjustable LED lighting and integrated demister functionality ensure reliable daily use, while the slim frameless design delivers a clean, modern aesthetic.

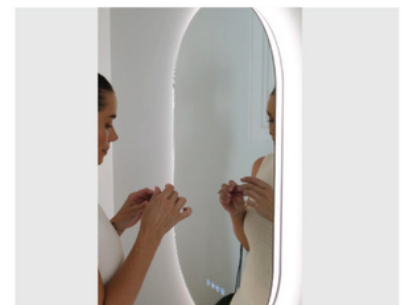

Built-in Bluetooth Audio

Integrated Bluetooth speakers allow you to stream music or podcasts directly from your device — discreetly built into the mirror.

Adjustable Ambient Lighting

Adjustable lighting in three temperatures — 3000K, 4000K, and 6000K. Brightness is fully dimmable via integrated touch controls for adaptable task and ambient lighting.

Plug-and-Play Simplicity

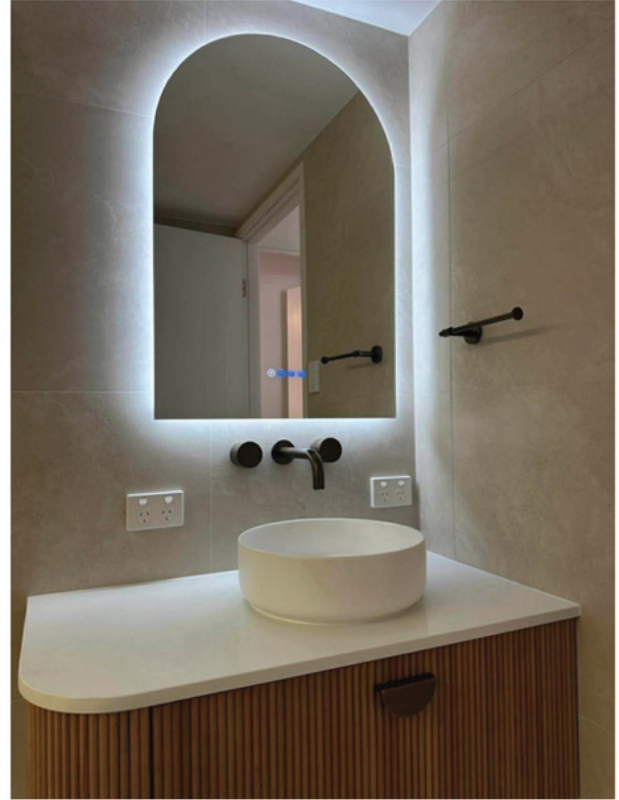

No electrician required simply plug in and enjoy.

Arcadia Arch

LED Mirror

Weight: 7.3kg
Dimensions: Width: 600mm
Height: 900mm
Mirror Thickness: 5mm
Mount Depth from Wall: 50mm

The Arcadia Arch LED Mirror combines structured form with a softened upper curve, creating a balanced focal point in modern bathroom spaces. Featuring adjustable LED lighting and integrated demister functionality, it offers both visual impact and practical performance in a streamlined, frameless design.

Built-in Bluetooth Audio

Integrated Bluetooth speakers allow you to stream music or podcasts directly from your device — discreetly built into the mirror.

Adjustable Ambient Lighting

Adjustable lighting in three temperatures — 3000K, 4000K, and 6000K. Brightness is fully dimmable via integrated touch controls for adaptable task and ambient lighting.

Plug-and-Play Simplicity

No electrician required — simply plug in and enjoy.

Eclipse Round LED Mirror

Weight: 6.7kg
Dimensions: Diameter: 750mm
Mirror Thickness: 5mm
Mount Depth from Wall: 50mm

The Eclipse Round LED Mirror combines clean circular design with practical, everyday functionality. Designed for modern bathrooms, it delivers even, adjustable lighting with integrated features that enhance usability without complicating installation.

Built-in Bluetooth Audio

Integrated Bluetooth speakers allow you to stream music or podcasts directly from your device — discreetly built into the mirror.

Adjustable Ambient Lighting

Adjustable lighting in three temperatures — 3000K, 4000K, and 6000K. Brightness is fully dimmable via integrated touch controls for adaptable task and ambient lighting.

Plug-and-Play Simplicity

No electrician required simply plug in and enjoy.

Aura Rectangular LED Mirror

Weight: 9.3kg
Width: 900mm
Height: 700mm
Mirror Thickness: 5mm
Mount Depth from Wall: 50mm

The Aura Rectangular LED Mirror offers clean horizontal proportion suited to contemporary vanities and double basin layouts. Integrated adjustable LED lighting and demister functionality provide practical everyday performance, while the frameless profile maintains a refined, architectural finish.

Built-in Bluetooth Audio

Integrated Bluetooth speakers allow you to stream music or podcasts directly from your device — discreetly built into the mirror.

Adjustable Ambient Lighting

Adjustable lighting in three temperatures — 3000K, 4000K, and 6000K. Brightness is fully dimmable via integrated touch controls for adaptable task and ambient lighting.

Plug-and-Play Simplicity

No electrician required simply plug in and enjoy.

Custom Orders + Project Enquiries

Lunarglow offers custom sizing and specification options for residential and light commercial projects.

If our standard range does not suit your requirements, we are able to explore:

- Custom dimensions
- Alternative shapes
- Project-specific quantities
- Specification adjustments (subject to feasibility)

For project pricing, lead times, and feasibility discussions, please contact:

+61 410 008 366

We're happy to work with designers, builders, and developers to ensure the right solution for your project.

Refined Light. Everyday Confidence.

How to use your

MIRROR

Lighting Control

Turn On

Tap the light button once to switch the mirror light on/off.

Change Light Colour

Tap the light button to cycle through:

Warm (3000K)/ Neutral (4000K)/ Cool (6000K)

Adjust Brightness

Hold the light button to increase or decrease brightness.

Brightness level is saved for next use.

Turn Off

Tap the light button to switch off completely.

Bluetooth Audio

Activate Bluetooth

1. Press the Bluetooth button once.
2. The mirror will enter pairing mode.
3. Connect Your Device
4. Open Bluetooth settings on your phone.
5. Select: LGM-XXXX (or similar).

Control Audio

Adjust volume and playback directly from your device.

Note: Once paired, your mirror will reconnect automatically when in range.

Anti-Fog (Demister)

Automatic Activation

The demister turns on automatically when the light is switched on.

How It Works

Gently heats the mirror surface to prevent fog build-up during showers.

Auto Shut-Off

Turns off automatically after 1 hour.

Tip: Turn on your mirror light before showering for best results.

Quick Overview

Light Button: Tap to turn on/off & change colour

Brightness: Hold light button to adjust

Bluetooth: Tap to connect and play audio

Demister: Activates automatically with light

(Applies to All Models Unless Stated Otherwise)

Mount depth from wall: 50mm

Features

Integrated demister pad
Built-in Bluetooth audio
Frameless design

Warranty

3-Year Manufacturer's Warranty

INSTALLATION GUIDE

Simple, Secure, Seamless.

WHAT YOU'LL NEED

Measuring tape

Pencil

Spirit level

Power drill

Wall plugs

Screws

Screwdriver

SAFETY FIRST

- Disconnect mirror from power before installation.
- Ensure wall can support mirror weight
- Avoid drilling into wiring or plumbing

INSTALLATION STEPS

1

Choose the Perfect Spot

Select a sturdy, flat wall. Ensure proximity to a power outlet.

2

Mark the Mounting Points

Measure and mark hook positions using a pencil. Use a spirit level to ensure alignment.

3

Prepare the Wall

For drywall: Use suitable wall plugs.
For solid walls: Insert wall plugs first.

4

Drill the Holes

Use a drill bit matching the size of your screws or plugs. Carefully drill into the marked positions.

5

Secure the Mounting Screws

Insert screws into wall plugs, leaving 5–10 mm exposed for the hooks

6

Hang the Mirror

Align the hooks on the back of the mirror with the screws. Gently lower into place until secure.

7

Choose the Perfect Spot

Connect the Power cord into a nearby outlet.
Test LED lighting and speaker functionality.

IMPORTANT NOTES

- Do not overtighten screws.
- Use a tile drill bit when drilling into tiled surfaces to prevent cracking.
- Always support the mirror securely while lifting into position
- Mirrors can be hardwired by removing the socket . Warranty is maintained as long as it's installed by a licenesed electrician to Australian standards.
